Cameras needed

This request is from Todd Wagner in Dayton, Washington.

I have been working with some kids up here in Dayton that have some behavioral challenges (in other words they tend to get into trouble a lot). One of the things that I have planned coming up is that I want to start teaching them about photography. I'm looking for a bunch of old Argus C3 cameras. I don't want to use expensive cameras, and I don't want to use cheap point and shoot cameras that don't let you set focus, shutter speed, or aperture, but I want to use a camera that is virtually indestructible and makes one really learn about the basics of photography. I need about a dozen total, and if you know of anyone who has any sitting in a closet that they would be willing to donate or sell fairly cheap, I would be interested.
